

## Higher Education Modifications

- Remove exemption for higher education part time employees.
  - Allowing part time permanent employees access to same benefits as full time employees.
  - Many part time employees are single wage earners within their families and need employer paid benefits to help support those families.

- Limit outside contract capabilities for higher education institutions.
  - Higher Ed schools have a competent and skilled work force that are capable of performing many of the duties on Capital Projects that are being contracted to private sector companies.
  - Hiring outside contractors relieves the University from its obligation of maintaining a trained and qualified workforce and downgrades that workforce into lesser classifications putting economic pressure on families and communities as wages fall.
